

GP SURGERY ST. MARY'S, SOUTHAMPTON

As part of the Urban Regeneration of the St Mary's area of Southampton, a new 8 GP surgery was required to replace the existing sub-standard building on St James Street.

A site was allocated by Southampton City Council on the north side of the new Kingsland Market Square and our Client won the competition to provide a new surgery for the GPs to lease.

Archaeological considerations were important on this brownfield site, together with careful attention to privacy and confidentiality. The site was regarded by the Planning Department as a prominent "landmark", leading to the proposed "T"-shaped building with feature brickwork elevations and curved sheeted roofs.

CLIENT: PRIMARY MEDICAL PROPERTY

LOCATION: , SOUTHAMPTON

COMPLETION: JUNE 2003

VALUE: £920,000
